H1b: OOD status of target structures under the Si/O task checkpoint (label-free, computed before scoring)
Structure-level distance from source phases
nearest-source distance / median source–source
(standardised mean descriptor)
median source–source
coesite
0.1 MPa
coesite
2.84 GPa
stishovite
0.1 MPa
stishovite
9.26 GPa
Atom-level coverage by source environments
atomic nearest-neighbour descriptor distance
sources, leave-one-out 95th pct
sources, leave-one-out median
target atoms, median
target atoms, 95th pct
